CLTS ENHANCEMENTS

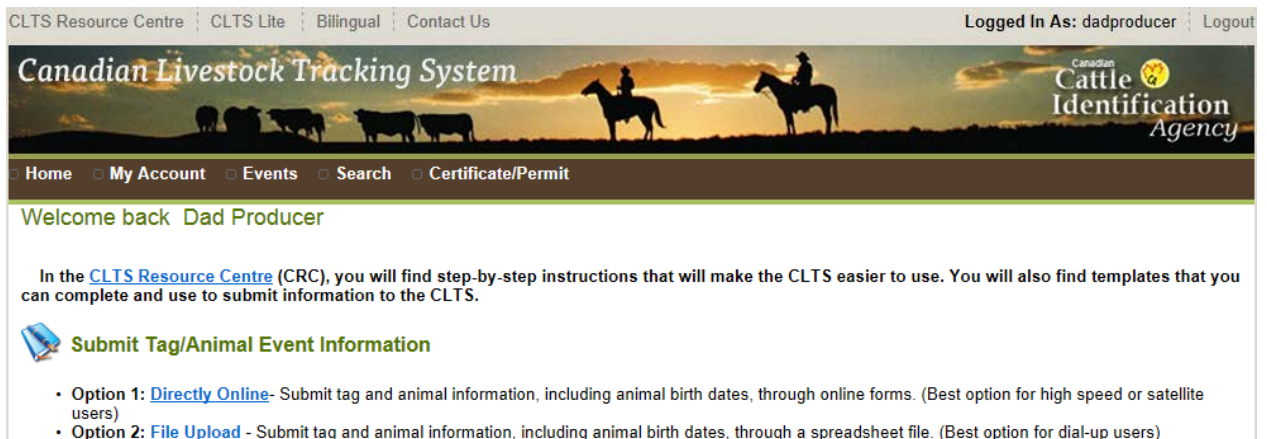

WHAT'S NEW?

THE LATEST UPDATES FOR THE CANADIAN LIVESTOCK TRACKING SYSTEM (CLTS)

As of December 19, 2011 Con't

Colours- White, Yellow and Dun have been added to the colour options.

Breeds- Holstein, Jersey and Ayrshire have been added to the breed options.

Optional Birth Date Methods- To reduce confusion, the optional birth date methods such as Artificial Insemination Date, Pregnancy Check Date, Bull Exposure Date, Weaning Date, Weaning Weight, Branding Date and Animal Type have been removed from the Event Details submission page.

Birth Certificates-

1. There is now an option to create a birth certificate from the Request Details page of a transaction:

Request Details

File Details

CLTS ENHANCEMENTS

WHAT'S NEW?

THE LATEST UPDATES FOR THE CANADIAN LIVESTOCK TRACKING SYSTEM (CLTS)

As of December 19, 2011 Con't

Temporary Export- The new event Temporary Export will enable users to report tag ID numbers applied to animals that are being temporarily shipped outside of Canada. An imported event should be applied when the animal arrives back into Canada. It is important to submit the imported event so that the animal's tag ID number appears in your animal inventory. The Temporary Export event can be found on the event list and will be available to all users who require it, such as producers and exporters.

Active Premises- only active premises associated with the selected source or destination account will appear in the premises drop down lists to help prevent submission errors.

Submit Events: Event Details

Please Note: You must report Birth Dates only for tags that have been applied to an animal

Tags Associated with the Event	
Tags:	Apply to all 1 tags
Event Details	
Event Type:	Birthdate
Source Account: *	Producer (A0397991)
Source Premises:	-- Select --
Date of Birth: *	-- Select --
Age in Months:	
Dob Method: *	<input type="checkbox"/> Actual Birth Date <input type="checkbox"/> Calving Start Date

Below, you must select at least one.

Errors and Solutions- on the Request Details page of a transaction, there will be a link to the Errors FAQ page on the CLTS Resource Centre, to assist users in understanding and correcting common submission errors.

Request Record Details

Category	Record Count	Display Record(s)	Download Record(s)
Error Records:	1	Display Record(s)	Download Record(s)
Processed Records:	0	Display Record(s)	Download Record(s)
Total Records:	1	Display Record(s)	Download Record(s)

[Common Errors and Solutions](#)

Animal Inventory-

- 1) A user's animal inventory will now reflect animals that have had a move-in event applied as well as animals that have had a birth date applied.
- 2) The animal inventory option will be removed for users who do not require it, such as Tag Manufacturers, Tag Distributors, Tag Dealers and Non-Producer Participants.
