

CLTS ENHANCEMENTS

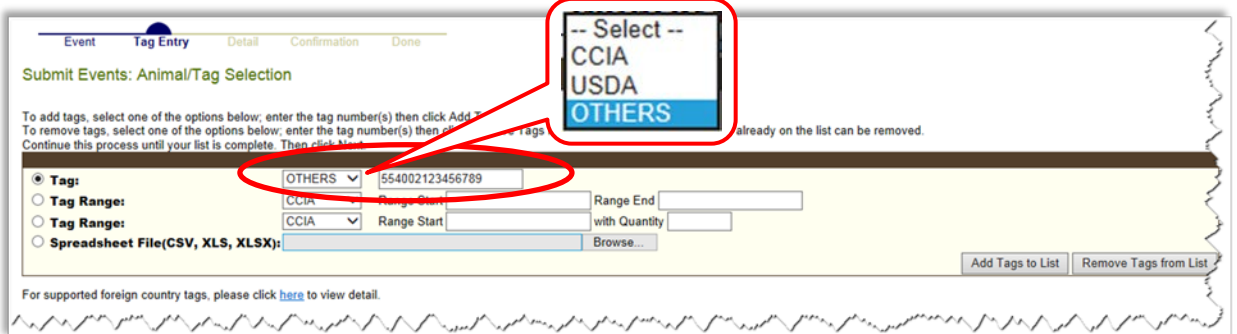

WHAT'S NEW?

THE LATEST UPDATES FOR THE CANADIAN LIVESTOCK TRACKING SYSTEM (CLTS)

As of March 31, 2016

- Foreign country tag ID numbers are now fully supported in the CLTS.
 - Users are able to submit an Imported event for any foreign country tag ID numbers. The supported format will be 15 digits in length, starting with country code. i.e. 554002123456789 for New Zealand. (Click [here](#) for full country code list)
 - After a foreign ID tag has had an Imported event applied in the CLTS, the tag can be also used for the following events: Move In, Move Out, Temporary Export, Exported and Retired.
 - If an animal is imported for immediate slaughter, it can be Retired without submitting an Imported event.
 - Events using foreign country tag ID numbers can be submitted using all three upload methods: directly online, file upload, and web services.
 - Foreign tag ID numbers are also supported for the Tag/Animal History Search, Export Manifest, and Account Animal Inventory function.

Event Submission - Directly Online, Animal/Tag Selection screen with foreign country tag ID:

CLTS ENHANCEMENTS

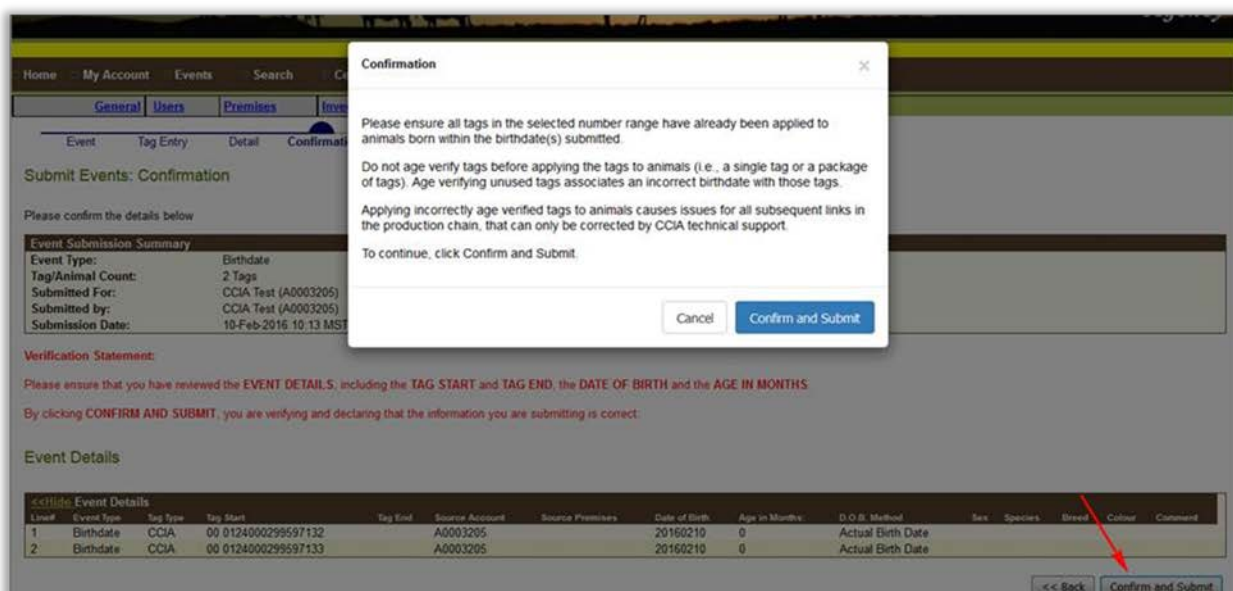

WHAT'S NEW?

THE LATEST UPDATES FOR THE CANADIAN LIVESTOCK TRACKING SYSTEM (CLTS)

As of March 31, 2016 Con't

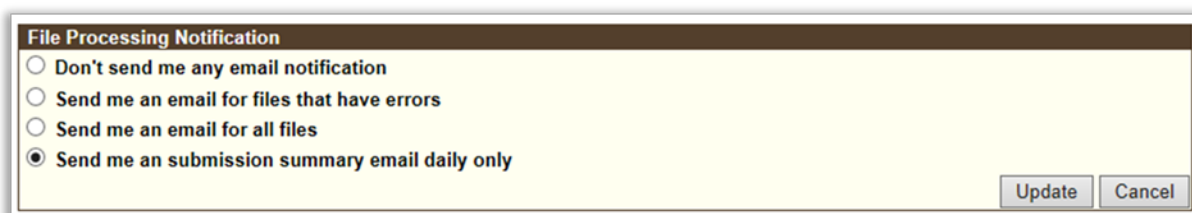

2. A new warning message regarding birthdate entries on multiple tags is now displayed to ensure users are entering the correct date information.

Birthdate- Event Details screen:

3. A new notification preference has been added to send one notification email per day only. Users that select this new preference will receive an email every day for the previous day's transaction submission summary.

My Account – Account Preference screen:

4. Tag dealers are now able to issue tags to CLTS accounts with the Abattoir operation type.
5. Movement events (Move In/Out, Imported, Exported and Temp Export) are now able to be applied to ATQ tags, directly after an allocated or manufactured event.
6. Support a secondary retired event on a retired animal for dead stock operators and pathology labs to report animal disposal information.
7. Increase of the maximum single web service transaction event number from 25 to 500.
8. Bug and translation fixes on the French version of the CLTS.

CLTS ENHANCEMENTS

As of March 31, 2016 Con't

9. A digicert trusted seal will now appear at the bottom of all CLTS screens. Users can click on the icon to verify the website security.

10. The new CLTS MOBO now has the capability of submitting birthdate events via your mobile phone.
