

Offline Mode

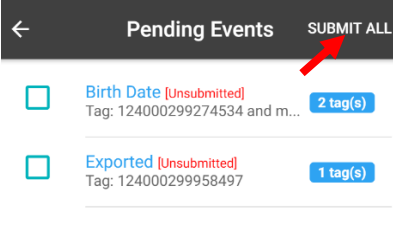

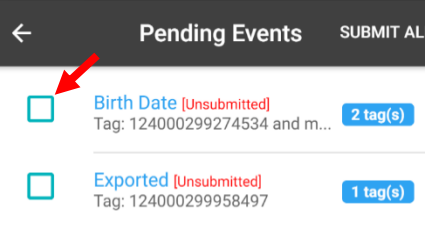

Offline Mode is a major new enhancement specifically beneficial to people in rural areas outside of dependable cell reception or Wi-Fi. The app is now functional offline, with the option to save records for future submissions once in a service area.

This Quick Guide will show you how to submit your pending events.

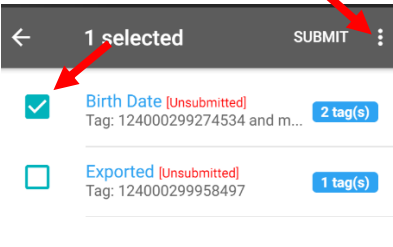

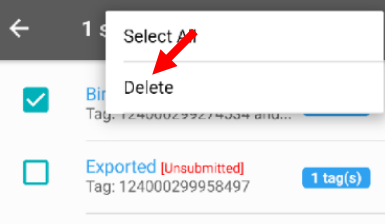

Step 1 – Pending Events Menu

<p>Tap Event from the home screen.</p> 	<p>Tap Pending Events.</p> 
--	--

Step 2a – Submit Events – To delete events you no longer wish to submit, proceed to **Step 2b**.

<p>To submit all events, tap SUBMIT ALL.</p> 	<p>To submit an event, select the event and tap SUBMIT.</p> 
---	--

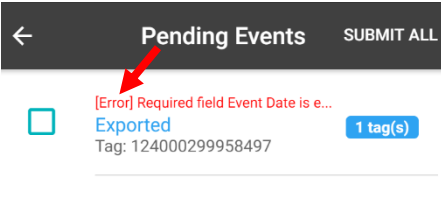

Step 2b – Delete Events – Ensure unwanted events have been deleted.

<p>To delete unwanted events, select the events, then tap the three dots.</p> 	<p>Tap Delete from the pop-out menu.</p> 
---	--

Step 3 – Event Submission Unsuccessful

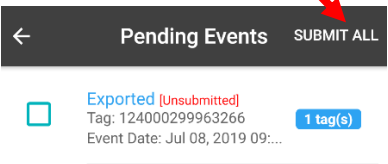

Events that are unable to be submitted due to errors will show an error message in red.

Tap on the event to correct the event details OR follow **Step 2b** to delete it.

Step 4 – Event Submission Successful

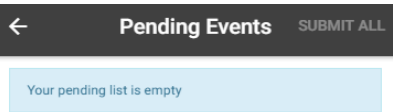

Once the errors are corrected, click **Submit All**.

Exported [Unsubmitted]
Tag: 124000299963266
Event Date: Jul 08, 2019 09:...

1 tag(s)

You will then see a message at the bottom of the screen that your events submitted successfully.

Your pending list is empty

1 events submitted successfully!
