

CLTS ENHANCEMENTS

WHAT'S NEW?

THE LATEST UPDATES FOR THE CLTS DATABASE

As of July 10 2020

Enhancements have been made to the CLTS database

- Addition of deactivate button for Retired/Disposed event without a tag ID
- New fields for Retired/Disposed event without a tag ID
- More breed types for goat species

Enhancement #1: Addition of "Deactivate Button" for Retired/Disposed event without a tag ID

Currently a Retired/Disposed event (without tag) cannot be modified or deactivated. Users can only search and view the event information. A new "Deactivate" button has been added beside the "Back" button for Users or CSR's to easily deactivate the event.

Event Submission Summary	
Transaction ID:	TR333436QTY
Event Type	Disposed
Disposed Date:	2020-04-15 00:00
Disposed By:	Test LIS(A0401218)

Submission Type	Web Online
Submitted Date:	2020-04-17 09:18
Submitted By:	LISGPMOVIN at Test LIS
Status	Active

As a result, a confirmation screen will be added following the decision to Deactivate. Three new fields in the details page have also been added, if the event is deactivated:

- Status
- Deactivated By
- Deactivated Date

CLTS ENHANCEMENTS

Enhancement #2: New fields for Retired/Disposed event without a tag ID

Two new fields “Carcass Number” and “Quantity” will be added for both Retired and Disposed event without tag ID. These fields will be available for both directly online and web service.

“Carcass Number” field maximum length is 40.

“Quantity” field maximum length is 5.
