

CLTS ENHANCEMENTS

WHAT'S NEW?

THE LATEST UPDATES FOR THE CLTS DATABASE

As of July 2021

Enhancements have been made to the CLTS database

-Many of the enhancements are standard updates which will improve the software internally but will not impact the user experience with the software.

Enhancement #1: Remove the public/private access level from the CLTS premises

When adding a PID to a CLTS account, there is currently an option to select if the PID should be public. When we add/register a PID, the CLTS will not provide this premises access level. All newly added PIDs will be Public by default after this enhancement is implemented.

Enhancement #2: New USDA Enhancement

Currently only Retired and Disposed events can be applied to USDA tags without having an imported event applied.

- Allow all 840 tag animal events to be processed without any condition
- Flag it if the entry event is not Imported or Retired
