

# CLTS ENHANCEMENTS

## WHAT'S NEW?

### THE LATEST UPDATES FOR THE CLTS DATABASE

#### *As of April 2021*

##### **Enhancements have been made to the CLTS database**

- Many of the enhancements involve additional options for specific events.
- A number of minor enhancements have been made to improve communications and offer more concise language.

#### **Enhancement #1: 15 Digits Tag Input Phase III**

It will be mandatory to use 15 digits tag ID via web service as part of Tag Input Phase III. Web service request format will be the same. Tag Type column is optional, entering data in the tag type column is still acceptable. The column will still be part of the event request templates. This way web service developers don't need to modify request format. Only change is to use 15 digits tag ID in web service request.

#### **Enhancement #2: Expanding the Number of characters in the Tag Search Field**

Currently the character limit in the Tag Search field is limited to 15 digits which can cause issues when copying and pasting tag ID's. The maximum allowed length will be changed to 21 digits.

#### **Enhancement #3: Distributed/Issued Event Details Note Addition**

Currently there is no indication of which date to use as the event date when submitting a Distributed or Issued event directly online. Add a note as below on the Event Details page for event types: Distributed and Issued.

#### **Enhancement #4: New Change on Account Search View - Dealer**

Currently the account search option for operation type Dealer shows results of Account ID, Status, Account Name, Contact Name, Address, Phone Number and the option to notify CCIA of changes needed. To be changed: Remove status column, Add account email, Rename "Notify CCIA of incorrect info" to "Update required?" Add PID header with a Yes or No appearing in the column. It will default to No unless the account has an active valid or conditional PID added.

#### **Enhancement #5: Add Dairy Event Transfer Section in Tag History Search Page**

Currently when dairy records are submitted the data is not added to the tag history screen for the tag ID. In tag/animal history search page, add new section "Dairy Transfer" to display any records transferred to Dairy. The column will be similar as animal history.

There will be 4 transfer status:

- **Success:** transferred to DairyTrace with success.
- **Pending:** pending transfer.
- **Not Transferred:** Event not being transferred to DairyTrace (out of scope)
- **Error:** transfer error.

## Tag/Animal History

### Tag Details

Tag Details
ISO Code: 12400000019356
Sub-Type: NLID Dairy 1
Tag Label(s):

### Animal History

Below is a summary of the events submitted for this tag. For a detailed view of each event, click on the event name.  
Note: You will only see information for the events you have permission to view.

Event	Event Date/Submission Date	Source Account/Premises	Destination Account/Premises	Tag Number	Transaction ID
Allocated	02-Jan-2020 00:00 MST	Canadian Cattle Identification Agency (A0321017)	Tag Manufacturer (A0302434)	12400000019356	TR3334399C3
Manufactured	15-Jan-2020 00:00 MST	Tag Manufacturer (A0302434)	Tag Manufacturer (A0302434)	12400000019356	TR3334399EY
Distributed	20-Jan-2020 00:00 MST	Tag Manufacturer (A0302434)	Tag Distributor Inc. (A0400184)	12400000019356	TR3334399CW
Distributed	22-Jan-2020 00:00 MST	Tag Distributor Inc. (A0400184)	Tag Dealer (A0303423)	12400000019356	TR3334399HU

Note: Premises that are not registered to a CLTS account are not linkable.

### Dairy Event History

Below is a summary of the dairy events submitted for this tag.

Event	Event Date	Source Account/Premises	Destination Account/Premises	Submission Date	Transaction ID	Transfer Status
Exported	23-Oct-2020 11:33 MDT	DairyTrace Producer 17 (A0401106)	DairyTrace Producer 17 (A0401106)	23-Oct-2020 11:35 MDT	TR33343AE30	Pending
Imported	23-Oct-2020 11:01 MDT	DairyTrace Producer 17 (A0401106)	DairyTrace Producer 17 (A0401106)	23-Oct-2020 11:04 MDT	TR33343AEW7	Pending
Exported	23-Oct-2020 11:02 MDT	DairyTrace Producer 17 (A0401106)	DairyTrace Producer 17 (A0401106)	23-Oct-2020 11:05 MDT	TR33343AEY3	Pending

## Enhancement #6: Filter Dairy Transaction Out when Search Request with Errors

When using the Request History search and you choose from the drop-down list to only view Errors, the results show transactions that have dairy events as well as errors. A new option "Dairy" will be added to the Results drop-down to filter dairy records.

**Search Details**

## Enhancement #7: Separate Dairy Records in Event Process Notification

Currently dairy records are counted as error records in event processing email. Add a new column to display dairy records separately.

Below is the submission summary for all transactions submitted on October 07, 2020

Total Submitted Transactions	Total Submitted Records	Total (Successful) Records	Total Error Records	Total On Hold Records
2	133	69	64	0

Below are the transaction details:
